

2023-2024 ANNUAL TRAINING PACKAGE

4 FOCUS AREAS

FOCUS AREA #1 – ROADSIDE UTILIZATION

- **CONIFER – 10CM (3.9”) DIAMETER OUTSIDE BARK – SMALL END**
- **HARDWOOD AND RED AND WHITE PINE – 14CM (5.5”) DIAMETER OUTSIDE BARK – SMALL END**

FOCUS AREA#2 – SAFETY PERSONAL PROTECTIVE EQUIPMENT

The importance of correct personal protective equipment (PPE) use in the logging industry cannot be overstated. A worker's last line of defence in case of an accident, **PPE can prevent or greatly reduce the chance of serious injury**. However, this can only be done if the worker commits to its use.

FOCUS AREA#3 – COMMUNICATIONS WITH MIISUN

NOTIFY MIISUN (KURT)

- **START UP NOTIFICATION – 5 DAYS PRIOR TO STARTING ANY OPERATION – HARVEST, ROAD CONSTRUCTION, WATER CROSSINGS, RENEWAL**
- **SUSPENDED – IF OPERATIONS ARE LEAVING FOR MORE THAN 20 DAYS, BUT WILL RETURN**
- **COMPLETED – WHEN ACTIVITY IS DONE IN THE BLOCK**

FOCUS AREA#4 – SDS AWARENESS AND BINDER (NEW)

As part of Action Plan from our recent SFI Audit, we are providing a binder that contains the majority of required SDS sheets for a typical logging operation. Please review for any omissions from your operation and add as required.

ADDITIONAL INFORMATION
